

The Mobile County District Attorney's Office, through extensive research, were able to locate victim's who have restitution funds available. To date, Victim Services has researched over 600 cases by phone numbers on file, social media and Internet searches. Through the efforts of the Mobile County District Attorney's Office, we were able to locate 168 victims and released over \$120,000 to them. However, there are approximately 420 victims with over \$237,000 in total funds available that have not been disbursed.

The District Attorney's Office would like to reach these 420 victims. You ask why the Mobile County District Attorney's Office has not contacted these victims, because we do not have current contact information. In an effort to locate the victims that have funds available, the Mobile County District Attorney's Office has included the list of the victim's names below. If your name is included on the list please call 251-574-8400, provide your contact information and a verification packet will be mailed to you. Once the completed verification packet is returned to the District Attorney's Office and the information is verified that you are the rightful victim in the case, funds will be released to you.

While the District Attorney's team is actively working for all victims, this project is limited to the victims whose name appear on the list, as these are the funds that have been paid and are available to be disbursed. The list is updated quarterly, please continue to check to see if your name has been added.
